AE Presentation for CA Workshop Feb 24 2015 AE.pptx

Well, clearly if it was up to me we wouldn't be there at all!

Here are some comments (embedded) on David's PP. Hoping we might eliminate 19-22 if the state is presenting their more strict criteria, as to not confuse folks.

Ex. 5 - Attorney Client

Also, we agreed it wouldn't be helpful to have ORC in attendance as it would likely just foster more specific questions we can't answer at this point. Comments on your PP to follow David.

Here is the proposed presentation from DOGGR as of last Thursday. They are revising it and we expect that we'll get a new version maybe tomorrow.

David and Scott:

Please find attached a draft PowerPoint presentation for the Aquifer Exemption workshops. I am still working on the slides, as they are too wordy. My plan is to cut this down, but place a more detailed document on our website after the first workshop. There is a lot of information to get out to folks, and using PowerPoint alone will not cut it. I'm sending this your way so that you have an idea of where I was headed. My thought is that we would conduct the workshop by providing the audience with information regarding the different agencies in the order the data/application will be processed. Even though there is information each of your organizations will be addressing, I will cover what the Division will be looking at. I am planning on holding off questions regarding the specific details until the different agencies have an opportunity to explain in more detail their requirements. All this is flexible and I hope this can be a starting point to our discussions tomorrow.

Thanks,

Rob
